

## Collins Interiors

Designing projects around the country for more than two decades, Cynthia Collins has the unique ability to create spaces that reflect a refined, sophisticated taste and simultaneously highlight a client's distinctive lifestyle and personality. "I purposefully plan each detail with my client in mind and make choices based upon functionality, meaning, and beauty to achieve a look that is both clean and timeless," she says. She expertly blends antiques with modern art, custom upholstery, and fine textiles to create contemporary, comfortable living spaces. Collins and her team travel frequently to England and France, where they find one-of-a-kind treasures for their clients. Many of their European goods can be found at Collins' shop, Blue Print, located in a lovely restored 1920s home in Uptown.
